

Project Sheet – Trackstar

Due Date _____

Following an in-class tutorial, each student will create a Trackstar webquest with a minimum of 10 different websites related to the student's technology-enhanced curriculum unit.

Each entry in the webquest will be annotated with a description of the site's content and a specific content item the track participant is to look at, read, or find.

In addition, a printable worksheet to accompany the Track will be created and printed as an Adobe PDF document.

Grading Rubric

| Objective | 1 | 2 | 3 | 4 |
|---|--|---|--|---|
| 1. The track contains a minimum of 10 different sites. | 1-3 different sites are included in the track. | 4-6 different sites are included in the track. | 7-9 different sites are included in the track. | 10 different sites are included in the track. |
| 2. Each site in the track is annotated with specific instructions on what the participant is to look at, read, or find. | 1-3 sites have explicit instructions. | 4-6 sites have explicit instructions. | 7-9 sites have explicit instructions. | 10 sites have explicit instructions. |
| 3. A worksheet to accompany the track is created and printed/saved as an Adobe PDF document | The worksheet was not created. | The worksheet was created and printed, but not saved. | The worksheet was created and saved, but not as an Adobe PDF document. | The worksheet was created and saved as an Adobe PDF document. |
